GALLERY HOTELES

Urban Comfort

GALLERY HOTELES is an independent hotel group founded in 2004 that currently manages two emblematic hotels known for their quality and personalised attention to their clients. The new **Hotel Molina Lario** opened in Malaga in the summer of 2006 is sure to become a point of reference in the city and the **Gallery Hotel** in Barcelona, opened in 1991 and one of Barcelona's best known establishments.

The **GALLERY HOTELES** Group was founded in Barcelona with the aim of strengthening the culture of the company itself and the management of new establishments after the creation of the **Hotel Molina Lario**. The group is led by Armando Rojas the Chief Executive Officer of **GALLERY HOTELES**

GALLERY HOTELES, is distinguished by its offer of centrally located establishments, situated in the commercial and financial heart of the city and by its high level of quality and personalised attention to each of its clients. Furthermore, the two hotels stand out owing to the wide variety of activities offered to their clients, from the recommended Gallery or Molina Lario walks, routes that invite visitors to explore the most authentic nooks and crannies of each city –to the terrace opening- parties held every summer or the "introduction to sailing courses that are run for the children of the hotels' principal clients.

The group is positioned at the high end of the business traveller market and has managed to obtain a 60% rate of returning clients.

New values in Hotel Management

High-quality service and personal attention to each and every client are the two maxims that govern the management of the group.

GALLERY HOTELES give a 5* service, in comfortable and elegant surroundings and a variety of services that help keep their guests feeling perfectly well cared for: a daily turn - down service, 24 hour room service, complimentary slippers, bath robe, umbrella, mini stereo system and music C.D's in all rooms along with great attention to all those small details, including gifts to our regular customers and to companies.

In this way we can offer a personalised service to each client. "We want to know each of our guests by name and to constantly be at his or her service"

For **GALLERY HOTELES** the "impossible" doesn't exist and to satisfy the needs of each person with the maximum quality is the mission of each member of our team.

An independent Hotel Group that is growing

GALLERY HOTELES was created with the aim of expanding its operations. Currently we have two fully operating hotels.

The **GALLERY HOTEL** in Barcelona and the **MOLINA LARIO** opened in 2006 in Malaga.

The 4* Superior **GALLERY HOTEL** opened in 1991, just before the Barcelona Olympic Games, in a privileged situation in Calle Rossellón 249, between Rambla de Catalunya and Paseo de Gracia, is in the financial, cultural and commercial centre of the city. The Hotel has become one of the most emblematic, independent hotels in the city.

Through its doors many famous personalities from the worlds of fashion, culture, sport or politics frequently pass, such as Adolfo Domínguez, Angel Nieto, Rubens Barichello, Carmelo Gómez, Bigas Luna, Eduardo Chillida, Carmen Posadas, Javier Solana, Mayor Zaragoza, Julia Ormond, Anthony Blake or Sara Baras.

Our Hotels

The **HOTEL MOLINA LARIO** is situated opposite the Cathedral in the very centre of the commercial and cultural area of the city, only a few metres from the port and the Picasso Museum.

The Hotel is made up of two completely restored nineteenth century buildings of which the original facades have been retained, and one completely new building, which together form a hotel complex which is unique in the city

The **HOTEL MOLINA LARIO** has 103 rooms decorated in a modern style, each with a work area and an elegant marble finished bathroom. All rooms are provided with telephone, fax, internet connection, safe box, T.V. mini stereo and mini bar. There is also an outside swimming pool with an amazing panoramic view of the city and a putting green space.

The restaurant El Café de Bolsa offers direct access from the street. It is divided into two areas separated by a bar: The totally white restaurant contrasts with the bar/café where the brown tones of the chairs and the dark wood wenge furniture dominate, both highlighted by the changing colours of the back lit shelves.

The Restaurant at the MOLINA LARIO is already becoming a meeting place for businessman, politicians and private citizens who take advantage of the cultural and commercial offer of the city of Malaga.

An interesting and varied menu of Mediterranean Cuisine can be enjoyed at its tables, dishes such as, Beef Rib cooked in Malaga Virgin wine and Pan Fried Beans Or Turbot with Roasted Leeks in a sauce of Wild Ceps are but two of its star dishes. This gastronomic delight is further complimented by where it can be enjoyed either on the terrace or in the courtyard,

The Café de Bolsa is a project designed by Oscar Rivera, the Head Chef and by Ramon Diaz, the Maitre. Both are professionals with wide ranging experience in the restaurant business and both were trained in the Escuela de la Cónsula

Meetings and convention rooms

The Hotel **Molina Lario** has six partitionable meeting rooms with a capacity of up to 250 people. All rooms are fully air conditioned and have computer connections for Wi Fi . There are dimmer switches on the lights. From the two roof terraces there are panoramic views of the port and the Cathedral.

A perfect setting for any type of cocktail party or private function.

| Victoria I + II + III + IV | 217 | 14.32 x 16.13 | 250 | 137 | - | 170 | 230 | - |

The **GALLERY HOTEL** is situated in Roselló Street, in the centre of the cultural, commercial and financial centre of the city of Barcelona. Built in 1991, it is architecturally a modern, sober building that was completely refurbished in 2002. It has 115 rooms, 5 of which are suites. The suites have in addition to the facilities found in all the rooms, a bedroom and a sitting room with a courtesy bathroom, 2 T.V's, 1 D.V.D. player, coffee, tea and liquor facilities and "L'Occitane "complimentary cosmetic products. The suites are totally sound- proofed and have views onto the gardens of the Palau Robert.

The rooms are decorated in a modern style and have a work area and an elegant marble finished bathroom. All rooms have two telephones, internet connection, safe box, flat- screen satellite television, mini stereo system, mini bar and 24 hour room service. The hotel also has triple rooms, rooms for non smokers and rooms for handicapped people.

The restaurant "El Café del Gallery" has become a classical spot in the centre of Barcelona. Here you can enjoy a wide and varied menu of exquisite Mediterranean cuisine, as well as innovative tapas and snack dishes, served in a cosy, quiet atmosphere. The Café is divided into two clearly separated spaces: on entering you can find the Café bar with comfortable high stools and a meeting point, and further on we find the restaurant itself, always busy during the working week with businessmen. The restaurant apart from the a la carte option offers a daily- changing menu. The kitchen is run by David Gaya the Head Chef and the restaurant is managed by the Maitre, Leopold Riera.

In addition there is a quiet open air terrace- garden that is open from June to October. Each Thursday during the summer "Live Music Suppers" are organised. Our guests also have the Fitness Centre, saunas and a solarium at their disposal free of charge. We also have a parking service and a Business Centre

Meeting and convention rooms

The **GALLERY HOTEL** is a perfect setting for the celebration of meetings, conferences, seminars or conventions. We have 8 rooms (4 of them with natural light) with a capacity of up to 200 people, all with full audio visual equipment, film projectors, slide projectors, videos, screens, microphones, simultaneous translation as well as fax services, telephone, internet connection with optic fibre and Wi Fi. These services are complimented by our Business Centre.
